

## CHINOOK MT – Nurse Practitioner

Are YOU ready to make a difference in integrated health care? Read on - are YOU qualified to apply and take the next step in YOUR career?

As a Nurse Practitioner, you are responsible for providing medical services to BVHC patients, within an integrated healthcare model, according to the clinical privileges associated with your license and area of expertise. You will coordinate the comprehensive health care needs of the specific patient population and provide appropriate direct patient care through assessment, diagnosis, and treatment of specific conditions. In this position, you may service as part of a consulting team with constant and effective communication to management and direct care staff regarding clinical policies and procedures.

### YOUR QUALIFICATIONS

- Nurse Practitioner – Montana Licensed
- Must be Board-eligible and/or Board certified
- Must have a current and unencumbered Montana License
- Must be able to apply for and be granted privileges at affiliated hospital(s)
- Demonstrated mastery of a specialty area or other related field normally acquired by 3-5 years of progressively responsible clinical experience
- Registered or eligible to be registered with the Federal Drug Enforcement Agency (DEA)

We offer a great benefit package including:

Generous Health Insurance Benefits

403B with 3% company match

Assistance with career growth including education and conference opportunities

PTO package

Holiday Pay

Great Team Members!

We have what we believe to be a first-class employment opportunity that will provide you with a lifestyle you can enjoy. In exchange for your dedication and expertise, we are proud to offer you a team environment and a competitive salary \$90k - \$120k DOE.

We look forward to receiving YOUR resume/application!
